SIZAVUSI

PIPING SYSTEMS

INTRODUCTION

Sizavusi Investments (Pty) Ltd was founded by Mordecai Dlamini, a local businessman, serial entrepreneur and rebellious spirit, when he approached Greg Looock in 2012 to start a business in Swaziland (now Eswatini). The purpose of the venture was to firstly, create a sustainable business in the Kingdom of Swaziland that will serve and empower the local citizenry and secondly, to capacitate a business that will serve the industry it is focused on, with expertise, competitive pricing and quality material.

The birth of Sizavusi Investments saw the business enter into an agreement with Sizabantu Piping Systems in South Africa but Sizavusi Investments soon outgrew the relationship.

As the business proceeded to grow, Sizavusi Investments attracted the interest of various suppliers and manufacturers, who wanted to establish a partnership. These partnerships have contributed greatly to the growth and success of Sizavusi Investments and has further allowed Sizavusi Investments to extend its operations beyond the Agricultural market sector, and become a reliable and preferential supplier to materials in the Construction industry.

MANAGEMENT TEAM

Sizavusi Investments is owned by Mordecai Dlamini and Greg Loock. The business is customer focused and run by both shareholders, participating in the areas of their own individual expertise and strengths. The wealth of experience both Mordecai and Greg has contributed to the business has allowed for a business to be created that is sustainable, understands the industry, respects the culture and customs of the nation and focusses on empowering Swazi people through honesty and integrity.

MISSION STATEMENT

Sizavusi Investments was founded with a lofty objective: to become the most respected brand in Eswatini, for the Agricultural and Infrastructure industry, and create a platform for partnerships for companies looking to expand into Eswatini.

VISION STATEMENT

To become and remain a conscientious and reputable supplier of all materials associated with the building of Infrastructures and Agriculture market sectors throughout the Kingdom of Eswatini.

OUR ACHIEVEMENTS

Sizavusi Investments has throughout its existence, constantly been growing the business, developing new markets and servicing the existing clients and markets with exemplary conduct. Since our inception, we have had many successes and supplied material to many of Eswatini's key projects. Our successes on all these projects can be attributed to our experience in sourcing and supplying fit-for-purpose materials of the highest quality, at the right price, at the right time. **These include:**
